Kota is a gorgeous 2019 model appaloosa stud. I bought him to start a breeding program I no longer am going to continue, to no fault of his own. He throws nice muscular foals and knows his job when its time. I bred him for the first time in 2021 to 4 mares and they all had great foals. I bred him again in 2022 to 7 mares. When I bought him he was broke to ride, the guy even taught him to sit like a dog. I purchased him from Dallas Schleg out of Indiana, he's truly great with horses. I personally have not rode him since he's been with me. I have worked with him from the ground with a saddle on though. Kota is homozygus black and homozygus LP. If you breed him he's guaranteed to throw you black based foals. He's got a great temperment, he's never been aggressive. He's an all around great stud.
